Media Release
27 August 2009

Will Delaat elected to RUM Project Board

Will Delaat, Independent Chairman of *Medicines Australia*, had been elected to the Board of the National Return and Disposal of Unwanted Medicines Limited (*The RUM Project*).

Mr Delaat's appointment was made at a Board meeting earlier this month.

RUM Project Chairman, Dipak Sanghvi, said he was pleased with the appointment, listing Mr Delaat's wide-ranging industry experience and knowledge as particularly beneficial.

"To have representation from *Medicines Australia* on the RUM Project Board is very appropriate," Mr Sanghvi said.

"We are collecting pharmaceuticals produced by members of *Medicines Australia*, so they have a useful role to play in the process."

Mr Delaat also expressed excitement at his appointment.

"I have always considered that *Medicines Australia* should be represented on the RUM Project Board and I am very pleased this has now come about," he said.

"The success of the RUM Project is recognised throughout the industry, both locally and internationally, and I look forward to contributing to this important safety initiative in medication management."
